

The Third NPAFC-IYS Virtual Workshop on Linkages between Pacific Salmon Production and Environmental Changes

MAY 25–27, 2021*

***MAY 26–28, 2021 in Japan, Korea & Russia**

The workshop format is changed to a virtual online workshop with live sessions and pre-recorded oral/poster presentations due to the ongoing COVID-19 pandemic and travel restrictions around the world.

FREE REGISTRATION

**DEADLINE
MAY 5, 2021**

Participants must register in advance to access to the virtual workshop site.

More information:

<https://npafc.org/workshop-2021/>

or email to secretariat@npafc.org

MAJOR TOPICS

- Salmon production in changing environments
- New technologies/integrated information systems for salmon research and management
- Resilience for salmon and people: lessons from the Great East Japan Earthquake in 2011

International Year of the Salmon (IYS) is an international framework for collaborative outreach and research. Through outreach efforts the IYS will raise awareness of what humans can do to better ensure salmon and their habitats are conserved and restored against increasing environmental variability.
