

Table of Contents

Preface	<i>i</i>
Table of Contents	<i>iii–v</i>
Opening Address	
Getting the message out Richard J. Beamish	1–6
Topic 1: Status of Pacific Salmon, Trends in Abundance and Biological Characteristics	
<i>1A: Trends in Abundance and Biological Characteristics</i>	
Trends in abundance and biological characteristics of pink salmon (<i>Oncorhynchus gorbuscha</i>) in the North Pacific Ocean Vladimir I. Radchenko, Olga S. Temnykh, and Viktor V. Lapko	7–21
Possible causes and effects of shifts in trends of abundance in pink salmon of southern Sakhalin and Iturup Islands Alexander M. Kaev, Alexander A. Antonov, Vladimir M. Chupakhin, and Vyacheslav A. Rudnev	23–33
Trends in abundance and biological characteristics of chum salmon Masa-aki Fukuwaka, Tomonori Azumaya, Toru Nagasawa, Alexander N. Starovoytov, John H. Helle, Toshihiko Saito, and Eiichi Hasegawa	35–43
Trends in abundance and feeding of chum salmon in the western Bering Sea Alexander N. Starovoytov	45–51
Trends in abundance and biological characteristics for North Pacific sockeye salmon Douglas M. Eggers and James R. Irvine	53–75
Chinook salmon - trends in abundance and biological characteristics William R. Heard, Evgeny Shevlyakov, Olga V. Zikunova, and Richard E. McNicol	77–91
Trends in abundance and size of coho salmon in the Pacific Rim Leon Shaul, Laurie Weitkamp, Kent Simpson, and Joel Sawada	93–104
<i>1B: How Can Ocean Conditions Be Observed Using Pacific Salmon?</i>	
Diets of Pacific salmon in the Sea of Okhotsk, Bering Sea, and northwest Pacific Ocean Vladimir I. Karpenko, Anatoly F. Volkov, and Maxim V. Koval	105–116

Regional diversity of juvenile pink salmon diet in autumn in the Bering, Okhotsk and Japan seas Svetlana V. Naydenko, Alexander Ya. Efimkin, and Artem E. Lazhentsev	117–126
Food supply and trophic relationships of Pacific salmon (<i>Oncorhynchus</i> spp.) and Atka mackerel (<i>Pleurogrammus monopterygius</i>) in the western Bering Sea in fall 2002–2004 Alexander V. Zavolokin, Alexander Ya. Efimkin, Alexander M. Slabinskiy, and Natalya S. Kosenok.....	127–131
Wounding of Pacific salmon in relation to spatio-temporal variation in distribution patterns of important predatory fishes in the Russian economic zone Vladimir V. Sviridov, Igor I. Glebov, Alexander N. Starovoytov, Alla V. Sviridova, Mikhail A. Zuev, Vladimir V. Kulik, and Maxim A. Ocheretyanny	133–144
Wounding of Pacific salmon by predators in gillnet catches in the Russian economic zone in 2004 Alexander V. Bugaev and Evgenii A. Shevlyakov	145–154
Preliminary studies of metazoan parasites of chum salmon (<i>Oncorhynchus keta</i>) in Korea Jeong-Ho Kim, Chul-Ho Lee, and Chae-Sung Lee	155–157

Topic 2: Role of Pacific Salmon in the Function of North Pacific Marine Ecosystems

2A: Migration Routes, Migration Timing, and Resident Areas for Populations of Pacific Salmon and What They Tell Us about Environmental Conditions

Stock-specific distributions of Asian and North American salmon in the open ocean, interannual changes, and oceanographic conditions Katherine W. Myers, Natalia V. Klovach, Oleg F. Gritsenko, Shigehiko Urawa, and Thomas C. Royer	159–177
Regional and seasonal differences in temperature and salinity limitations of Pacific salmon (<i>Oncorhynchus</i> spp.) Tomonori Azumaya, Toru Nagasawa, Olga S. Temnykh, and Gennady V. Khen	179–187
Spatial distribution and age composition of chum salmon in the western Bering Sea in 2002 and 2003 Elena A. Zavolokina	189–192
Spatio-temporal variation in vertical distributions of Pacific salmon in the ocean Robert V. Walker, Vladimir V. Sviridov, Shigehiko Urawa, and Tomonori Azumaya	193–201
Genetic diversity and population structure of chum salmon in the North Pacific Go-Eun Kim, Youn-Ho Lee, Geoyoung Kang, Choong-gon Kim, Woongsic Jung, Ki-Baek Seong, James E. Seeb, Suam Kim, and Sukyung Kang.....	203–209

2B: Spatial Scales of Salmon and Environmental Variability

- Influence of physical parameters on zooplankton variability during early ocean life of juvenile chum salmon in the coastal waters of eastern Hokkaido, Okhotsk Sea
Hiroki Asami, Hiroshi Shimada, Mayumi Sawada, Hajimu Sato, Yasuyuki Miyakoshi,
Daisei Ando, Makoto Fujiwara, and Mitsuhiro Nagata..... 211–221
- Influence of coastal seawater temperature on the distribution and growth of juvenile chum salmon, with recommendations for altered release strategies
Mitsuhiro Nagata, Yasuyuki Miyakoshi, Daisei Ando, Makoto Fujiwara, Mayumi Sawada,
Hiroshi Shimada, and Hiroki Asami..... 223–235
- A shift in pink salmon dominance in the Okhotsk Sea of Hokkaido in relation to coastal environments during early sea life
Mitsuhiro Nagata, Daisei Ando, Makoto Fujiwara, Yasuyuki Miyakoshi, Mayumi Sawada,
Hiroshi Shimada, and Hiroki Asami 237–249

Topic 3: Pacific Salmon as Indicators of Climate Variability in the North Pacific**3A: Observations: What Observations of Pacific Salmon Populations Indicate Climate Variability Most Clearly?**

- Spatial and temporal changes in the growth patterns and survival of Hokkaido chum salmon populations in 1970–2001
Masahide Kaeriyama, Akihiko Yatsu, Masayuki Noto, and Seiichi Saitoh 251–256
- Bioenergetic responses by Pacific salmon to climate and ecosystem variation
David A. Beauchamp, Alison D. Cross, Janet L. Armstrong, Katherine W. Myers,
Jamal H. Moss, Jennifer L. Boldt, and Lewis J. Haldorson 257–269
- Comparison of sockeye almon (*Oncorhynchus nerka*) monitoring in the Fraser River basin, British Columbia, Canada and Bristol Bay, Alaska, USA
Peter S. Rand, Cathy P. Kellon, Xanthippe Augerot, Matthew Goslin, James R. Irvine,
and Gregory T. Ruggerone 271–284
- Salmon as status indicators for North Pacific ecosystems
James R. Irvine, and Brian E. Riddell 285–287

3B: Mechanisms: How is Climate Variability Transmitted to Variability in Pacific Salmon Populations?

- Influence of salmon abundance and ocean conditions on body size of Pacific salmon
John H. Helle, Ellen C. Martinson, Douglas M. Eggers, and Oleg Gritsenko 289–298
- Density-dependent growth of sockeye salmon in the North Pacific Ocean
Ole A. Mathisen, Lowell Fair, Richard J. Beamish, and Victor F. Bugaev 299–310

A review of the critical size, critical period hypothesis for juvenile Pacific salmon
Edward V. Farley, Jr., Jamal H. Moss, and Richard J. Beamish 311–317

Possible causes and effects of shifts in trends of abundance in pink salmon of Kunashir
Island, a population near the southern limit of its range in Asia
Alexander M. Kaev, and Larisa V. Romasenko 319–326

Similarity of diurnal rhythms of Pacific salmon feeding in the western Bering Sea
Anatoly F. Volkov, and Natalya S. Kosenok 327–333

Symposium Summary 335–336

List of Reviewers 337
