

INTERNATIONAL NORTH PACIFIC FISHERIES COMMISSION

30th Annual Meeting--1983

Anchorage, Alaska, 1983 November 1

LIST OF MATERIAL AND DATA EXCHANGES 1982/83

The Secretariat has been advised of the following material or data exchanges which have taken place since the adjournment of the 1982 Annual Meeting--

1. Salmonids

(1) Computer tape and scale impressions

Date of exchange	1982 December 6
From/to	C.K. Harris, Fisheries Research Institute, to S. Odate, Fisheries Agency of Japan
Contents	(1) catch, effort, biological data, and scale impressions collected by U.S. research vessels in 1982, (2) scale measurement data for 1980 coho salmon, (3) sockeye scale measurement data 1972-76

(2) Scale impressions and data

Date of exchange	1982 December 20
From/to	S. Odate, Fisheries Agency of Japan, to C.K. Harris, Fisheries Research Institute
Contents	Chinook scales and data from 1981 collections by Japanese motherships and research vessels

(3) Scale impressions and data

Date of exchange Various, from late 1982 to early 1983

From/to Department of Fisheries and Oceans,
Canada, and various B.C. and Yukon
fisheries management offices, to FRI

Contents Chinook scale impressions, biological
data and run size and escapement
estimates for 1982

(4) Magnetic tape and printout

Date of exchange 1983 January 27

From/to Fisheries Agency of Japan to
M.L. Dahlberg, NMFS (via INPFC
Secretariat)

Contents Statistics for 1982 Japanese mothership
and landbased salmon fisheries

(5) Scale impressions and data

Date of exchange 1983 March 3

From/to S. Odate, Fisheries Agency of Japan, to
C.K. Harris, Fisheries Research Institute

Contents (1) chinook scales collected by Japanese
motherships and research vessels in 1979,
(2) coho scale samples available from the
U.S.S.R. in 1981

(6) Scale impressions and data

Date of exchange 1983 March 4

From/to R.L. Burgner, Fisheries Research
Institute, to S. Odate, Fisheries Agency
of Japan

Contents 1981 chum salmon scales and associated
data for various Alaskan areas

- (7) Scale impressions and data
- Date of exchange 1983 March 1
- From/to F.R. Bernard, Department of Fisheries and Oceans, Canada, to K. Takagi, Fisheries Agency of Japan
- Contents 1981 coastal chum salmon scales and associated data
- (8) Scale impressions and data
- Date of exchange 1983 March 25
- From/to S. Odate, Fisheries Agency of Japan, to C.K. Harris, Fisheries Research Institute
- Contents Chinook scales and associated data available from the U.S.S.R. in 1981
- (9) Scale impressions
- Date of exchange 1983 April 12
- From/to Y. Yole, Department of Fisheries and Oceans, Canada, to C.K. Harris, Fisheries Research Institute
- Contents 1981 Canadian coho scale samples from northern B.C. areas
- (10) Computer tape
- Date of exchange 1983 April 18
- From/to C.K. Harris, Fisheries Research Institute, to Y. Ishida, Fisheries Agency of Japan
- Contents Programs used in recent FRI salmonid scale pattern analyses

(11) Scale impressions and data

Date of exchange 1983 April 25

From/to C.K. Harris, Fisheries Research
Institute, to S. Odate, Fisheries Agency
of Japan

Contents Additional 1981 Alaskan chum salmon scale
samples and associated data

(12) Magnetic tape

Date of exchange 1983 July 18

From/to S. Odate, Fisheries Agency of Japan, to
R.L. Burgner, Fisheries Research Institute

Contents Catch data for Japanese salmon research
vessels in 1982

(13) Scale impressions

Date of exchange 1983 July 19

From/to S. Odate, Fisheries Agency of Japan, to
R.L. Burgner, Fisheries Research Institute

Contents Scale impressions of steelhead trout
samples collected by Japanese research
vessels, 1976-81

(14) Scale impressions and associated data

Date of exchange 1983 July 26

From/to S. Odate, Fisheries Agency of Japan, to
R.L. Burgner, Fisheries Research Institute

Contents Scale impressions and associated data for
1977 and 1978 chinook salmon samples
collected by Japanese motherships and
research vessels

(15) Scale samples and biological data

Date of exchange 1983 August 16

From/to P. Holmes, Alaska Department of Fish and Game, to S. Odate, Fisheries Agency of Japan

Contents Scale impressions and biological data for chum salmon collected in the Kodiak and Alaska Peninsula areas in 1981

(16) Specimens of steelhead and associated biological data

Date of exchange 1983 September 1

From/to Fisheries Agency of Japan to L. Margolis, Department of Fisheries and Oceans, Canada

Contents Steelhead samples (128) collected by the Oshoro maru, a Japanese research vessel, and associated biological data

(17) Head samples of steelhead and associated data

Date of exchange 1983 September 7

From/to S. Odate, Fisheries Agency of Japan, to M.L. Dahlberg, Auke Bay Laboratory, NMFS

Contents Head samples (4) and associated data of steelhead with clipped adipose fin caught by Japanese research vessels in 1983 season

(18) Specimens of steelhead and associated biological data

Date of exchange 1983 September 23

From/to S. Odate, Fisheries Agency of Japan, to L. Margolis, Department of Fisheries and Oceans, Canada

Contents Steelhead samples (169) collected by Japanese salmon research vessels and associated biological data

(19) Scale impressions and data

Date of exchange 1983 September 24

From/to S. Odate, Fisheries Agency of Japan, to
R.L. Burgner, Fisheries Research Institute

Contents Chinook scales and associated data for
1975 and 1976 chinook salmon samples
collected by Japanese motherships and
research vessels

(20) Computer tape

Date of exchange 1983 September 26

From/to K. Takagi, Fisheries Agency of Japan, to
L. Margolis, Fisheries and Oceans, Canada

Contents Age/maturity data summarized by salmon
species, gear type, 10-day period, and
2°x5° area

2. Marine mammals

(1) Magnetic tape

Date of exchange 1983 February 17

From/to M. Tillman, National Marine Mammal
Laboratory, NMFS, Seattle, to S. Odate,
Fisheries Agency of Japan

Contents Sighting data 1982, life history data
1981, mothership net set and retrieval
data 1981 and 1982 for marine mammals
