The number of Dall's porpoise incidentally taken
by the Japanese squid driftnet fishery in 1987

November 1989

Fisheries Agency of Japan

Not to be cited without having written permission
of the Fisheries Agency

The number of Dall's porpoise incidentally taken by the Japanese squid driftnet fishery in 1987

1. The number of Dall's porpoise incidentally taken by the Japanese squid driftnet fishery in 1987 was 2,145 individuals (see attached figure).
2. The Fisheries Agency instructed fishermen to report an incidentally taken porpoise as a Dall's porpoise in case where fishermen could not surely identify it as Dall's porpoise. Therefore, it is quite possible that the number of Dall's porpoise here is over reported.
